Objective

As a dedicated and certified front-end developer with a proven track record of over a decade, my objective is to leverage my extensive expertise in web accessibility, usability, SEO, web performance, and security to create visually stunning and user-friendly websites. I am passionate about taking ownership of projects, guiding teams, and ensuring the delivery of high-quality code through rigorous QA testing. My ultimate goal is to contribute my skills and knowledge to a forward-thinking team, where I can make a meaningful impact and continue to excel in the dynamic world of web development. Front-end development isn't just my profession; it's a lifelong passion and an integral part of my identity.

Professional Summary

- Certified front-end developer with 10+ years of web development experience.
- Expertise in web accessibility, usability, SEO, and security.
- Dedicated to crafting visually appealing and user-friendly websites.
- Proactive problem-solver who takes ownership of projects and leads teams to success.
- Proficient in a wide range of technologies, from HTML and CSS to ReactJS.
- Committed to continuous improvement and staying up-to-date with industry trends.
- Passionate about creating innovative web solutions and delivering exceptional user experiences.
- Front-end development is not just a career; it's a lifelong passion and a commitment to excellence.

Work experience

2015–Present — SENIOR UI ENGINEER • Brain Station 23 Limited
